STATEMENT

On the matter of Election System reform of Georgia

29 July, 2020 Year

We welcome the approval of amendments to the Constitution by the Parliament of Georgia, afterwards the third hearing according to which the 2020 parliamentary elections will be held proportionally 120/30 and with 1% barrier. The positive role of international facilitators in the decision-making process should be emphasized. We think, that this decision is a precondition for stabilizing the political process, promoting political pluralism and improving the electoral environment.
