

STATEMENT

15 april, 2022Year

We welcome the decision of the Government Commission for EU Integration to make public the questionnaire submitted to Georgia.

This decision will contribute to the openness, transparency, and inclusiveness of the EU membership process, which will enable civil society to be more involved in and contribute to the process.

We believe that Georgia's membership in the European Union is the most important strategic priority of our country and we will achieve success through joint efforts and intersectoral partnership.
